RELEASE: NOVEMBER 2015

# Company Profile

**PYBAR Mining Services, a wholly owned subsidiary of the PYBAR Group, was established in NSW in 1993 by CEO Paul Rouse. It has grown to become Australia’s third largest underground hard rock mining contractor.**

The company’s core business is underground hard rock development and production mining. This service is supported by the PYBAR Group’s resources in diamond drilling, electrical design and construction, and fleet maintenance and engineering.

Collectively, the Group has more than 1,000 employees.

PYBAR is headquartered in Orange with offices in Sydney, Perth and Kalgoorlie.

The company has a fleet of more than 300 units of plant and ancillary equipment, and has the second largest raise bore rig in Australia.

With its significant resources and private backing, PYBAR has the capability, agility and responsiveness to provide a scalable, market-leading service nationally.

# FAQs

## What is PYBAR’s ownership structure?

PYBAR Mining Services is a wholly owned subsidiary of the PYBAR Group - a company privately owned by the Rouse family. Paul, Brendan and Andrew Rouse are involved in the business at a senior management level.

## What is the ownership structure of the PYBAR Group’s subsidiary and affiliate companies?

## Where does PYBAR operate?

PYBAR has administration offices in Orange, Sydney, Perth and Kalgoorlie. Its projects, past and present, are located throughout Australia in NSW, QLD, VIC, WA, SA and TAS.

## What have been PYBAR’s largest projects to date?

PYBAR has successfully completed a number of whole-of-mine contracts (development and production) including the Tritton, Mineral Hill and Hera mines in NSW, the Osborne and Starra mines in QLD, the Ballarat mine in VIC and the Red October mine in WA.

## What is PYBAR’s strategy for growth?

PYBAR’s objective at every project is to re-set performance benchmarks, safely and within budget. By doing so, the company has built a solid track record of exceeding productivity expectations which, in turn, has led to long term client partnerships and new business opportunities.

With a strong presence in NSW, QLD and VIC, the company has expanded its presence in WA through the establishment of a Perth office and Kalgoorlie offices.

Across Australia, PYBAR continues to target projects which it believes can benefit from its focus on resetting targets – an approach that has been delivering significant value to the company’s existing clients.
